Education

Pune Institute of Computer Technology — *2024 – 2028*
B.Tech in Computer Engineering — *CGPA: 9.08*

New Bombay City School, Navi Mumbai — *2022 – 2024*
HSC, CBSE — *85%*

Apeejay School, Navi Mumbai — *2022*
SSC, CBSE — *92.5%*

Personal Projects

AuthenX – Loan Utilization Tracking Platform

- *Full Stack Web Project*
- Built an offline-first Progressive Web App to track and verify loan asset utilization for banks and government agencies.
- Designed AI-powered backend microservices using YOLO-based image detection, OCR, and EXIF/GPS validation to detect fraudulent or reused assets.
- Implemented role-based dashboards, Excel-based onboarding, and secure authentication (OTP/JWT) to ensure transparency, auditability, and compliance.PM Internship Scheme Portal

NabhaLearn - Digital Skills Learning Platform
Progressive Web Application

- Built a Progressive Web Application for delivering digital skill content with offline access using service
- workers.
- Implemented Excel-based data import/export for tracking learner progress, assessments, and performance
- analytics.
- Automated data processing from Excel sheets to generate structured reports, reducing manual tracking effort.

Technical Skills and Interests

- **Programming Languages:** C++, Java
- **Web Development:** HTML, CSS, JavaScript
- **Languages:** English, Marathi, Hindi
- **Areas of Interest:** Competitive Programming, Learning New Technologies

Positions of Responsibility

Member
PICT CODER'S LEAGUE – Member

Achievements

Codechef 2 star rated competitive programmer

Solved 500+ DSA problems across Platforms

Selected for Smart India Hackathon (SIH) Internal Round at institute level
